- Those with access and functional needs should immediately go to the nearest fire refuge area and call 911.

- Stay in shelter until an Eagle Alert is sent telling you it's safe to leave.

- Call 911 (or have someone call 911 for you).
- Send others to get an AED and to meet first responders at the door.
- Ask the individual if you have their permission to assist them.
 - If **YES**, provide first aid to the extent that you feel able.
 - If **NO**, move away from the individual and wait for first responders.
 - If **unconscious**, you have implied consent to provide assistance, as long as you are not negligent.
- Assist paramedics as needed when they arrive.
- Gather info and report the incident to Risk Management Services.

Run. Hide. Fight. (Active Threat)

PROMPTS: Eagle Alert; successive, loud shot noises; groups of individuals running and screaming
